Bastien FAFCHAMPS

fullstack software, game and web developer

Profile

Long time Unity user, I'm a creative designer and problem solver, I can work on any side or stage of a project. I can analyze needs, make specific diagrams, write structured code and through my overall experience, understand the needs of artists. I'm a fast learner ready to tackle any new task, happily learning from and helping other people along the way.

Skills

C#	HTML	SQL	React
Java	CSS	NoSQL	ASP.NET
